## LaSalle Solutions Named a 2018 Most Promising Cisco Solution Provider

**ROSEMONT, Ill., Sept. 20, 2018** — LaSalle Solutions, a leading provider of technology lifecycle management services, announced today that it has been recognized as one of the top Cisco Solution Providers of 2018 by CIOReview. The Cisco special edition showcases the 20 most promising Cisco solution providers of the year.

The annual list of most promising Cisco solution providers is developed by a panel of experts, thought leaders and members of CIOReview's editorial board to recognize service provider leaders that "have showcased great innovation as well as technological prowess in the marketplace."

"We are thrilled to be named to CIOReview's list of the 20 Most Promising Cisco Solutions Providers for the second time," said Steven Robb, president of the Solutions Group at LaSalle Solutions. "It's an honor to be recognized by this distinguished panel of CEOs, CIOs, VCs and analysts — including the CIOReview editorial board — for the innovative technology solutions that LaSalle Solutions delivers as a Cisco partner."

This recognition — together with a recent Cisco award for Most Strategic Services Partner as well as Lifecycle Advisor Partner and Gold Certified Partner designations, with Cisco Master Specializations in Security and Collaboration — shows LaSalle's commitment to delivering best-in-class solutions to its customers.

"Our goal is to help our customers better manage their technology information while utilizing integration to automate processes, enabling new opportunities and successes for all," said Robb.

In addition to the awards and recognition mentioned above, LaSalle holds Cisco Advanced Specializations in Borderless Network Architecture, Security Architecture, Collaboration Architecture, Enterprise Networks Architecture, Data Center Architecture and Unified Computing Technology. LaSalle also holds Cisco Authorized Technology Provider (ATP) designations in Application Centric

Infrastructure, TelePresence Video Master, ServiceGrid Reseller, Data Virtualization Reseller, Energy Management Suite Integrator and Identity Services Engine.
